

Aim:

To implement the basic concepts of HTML & CSS to create a static college website.

Procedure:

Step 1: Open any one of the text editor.

Step 2: Create a HTML file and named as index.html.

Step 3: Include all necessary tags like head, title, body etc.,

Step 4: Insert the heading, paragraph & image tag at the necessary place.

Step 5: Adding some inline css includes background color, background image, font-family etc.,

Step 6: Run the HTML file using web browser.

Design code:

```
<html>
```

```
<head>
```

```
<title> Government college of Technology </title>
```

```
</head>
```

```
<body>
```

```
<div style="background-color:black">

```
<marquee behavior="alternate" direction="right">
```

```

```

```
<h1 style="color:burlywood;font-size:50px">
  GOVERNMENT COLLEGE OF TECHNOLOGY</h1>
```

```
</marquee>
```

```
</div>
```

```
<style>
```

```
• center {
  display: block;
  margin-left: 10px;
  margin-right: auto;
  width = 70%;
}
```

```
</style>
```

```
<div>
