Aim :

To implement three modes of css - inline, internal & external in a website.

Procedure :

Step 1: open any one of the text editor.

Step 2: create an HTML file & a css file named as index.html & style.css

Step 3: Include all necessary tags includes html, head, script & body.

Step 4: create a form with div & paragraph tag.

Step 5: Implement three types of Styling.

Step 6: Run the HTML file using web browser.

Design code

index.html

```
<html>
<head>
 <title>Implementation of css </title>
</head>
<body>
<style>
 p
 {
```

Government College of Technology

Red colour

Green

Departments:

Yellow

```
        font-family : Arial;
        font-size : 25px;
        background-color :
    }
</style>
<div>
    <p style = "color:blue; bg-color: green;>
I   am   RATHESH PRABAKAR  currently
pursueing   B.Tech. I am   a   passionate
devoloper   with   some  Knowledge   on
c, Python, git </p>
</div>
</body>
</html>

Style.css
body
{
    background-color : lightblue;
}
h1
{
    color:navy;
}
```
